

THE ROYAL  
COLLEGE OF  
SURGEONS  
OF EDINBURGH

# Informed Consent: Sharing the Decision (ICONS)

28 February 2023 | Edinburgh  
6 CPD Hours Available

ICONS is the RCSEd response to the communication inadequacy exposed by the Montgomery legislation.

Surgeons of all grades report almost unanimously that learning from their ICONS participation changes their everyday practice.

The skills taught also map directly to the latest ISCP syllabus: General Professional Competencies and Capabilities in Practice.

ICONS encourages behaviour which considers all treatment options, including no treatment. It promotes values of shared decision making, known to reduce the risk of decision, regret and litigation.

Many delegates move on to become ICONS regional trainers, as ICONS is increasingly seen as a core component of Human Factors skills acquisition.

**ICONS** – Informed **CON**sent: Sharing the decision – can you afford not to?
