

Course

Introduction to Clinical Research including Critical Appraisal

Wed 13 - Thurs 14 September 2023

Why attend this in person course?

- To find out how the research process works
- To see how you can get involved in research
- To understand how you can support research as a clinician

Research is part of the 'core business' of the NHS, and all trainee physicians are expected to have an understanding of the process of research, so that you can support research activity.

Course Directors

Dr Roanna Hall (Edinburgh)

Dr Alixe Kilgour (Edinburgh)

Dr Eve Miller-Hodges (Edinburgh)

Audience

This course is aimed at early-years medical trainees (IMT2/IMT3/ST4), but is suitable for anyone who wants to gain a basic understanding of research methods and practice for clinicians.

What does the course cover?

Day 1

Research process and study types • Designing a study • Constructing protocol • Applying for funding • Approvals & ethics • Design a study • Academic career pathways – 'How we got into research'

Day 2

Present your study to the funding panel • Project and data management • Analysing your data • Writing up and publishing your results • Writing an abstract • Introduction to critical appraisal

Format

The course consists of a mix of lectures, interactive group work with breakout rooms and informal discussion.

Registration fee

Standard - £180

RCPE members - £120
