The methodology used to create these reports is explained in the non-technical and technical reports. The results are benchmarked against the results from trainees at a similar level of training in corresponding specialties, these are set out in the list of benchmark groups. If you wish to view the methodology reports and/or benchmark groups, please email DeaneryQualityManagement@nes.scot.nhs.uk "Significant Change Indicators" (▲ or ▼) show a 95% significant change in the mean score for a unit and do not indicate a change in outcome. Rows in italics and blue contain aggregated 2021-2023 results. During the 2022-23 surveys, new questions were piloted which included areas covering equality, diversity, inclusivity and discrimination. Analysis of this new information is ongoing.

The methodology used to create these reports is explained in the non-technical and technical reports. The results are benchmarked against the results from trainees at a similar level of training in corresponding specialties, these are set out in the list of benchmark groups. If you wish to view the methodology reports and/or benchmark groups, please email DeaneryQualityManagement@nes.scot.nhs.uk "Significant Change Indicators" (▲ or ▼) show a 95% significant change in the mean score for a unit and do not indicate a change in outcome. Rows in italics and blue contain aggregated 2021-2023 results. During the 2022-23 surveys, new questions were piloted which included areas covering equality, diversity, inclusivity and discrimination. Analysis of this new information is ongoing.

The methodology used to create these reports is explained in the non-technical and technical reports. The results are benchmarked against the results from trainees at a similar level of training in corresponding specialties, these are set out in the list of benchmark groups. If you wish to view the methodology reports and/or benchmark groups, please email DeaneryQualityManagement@nes.scot.nhs.uk "Significant Change Indicators" (▲ or ▼) show a 95% significant change in the mean score for a unit and do not indicate a change in outcome. Rows in italics and blue contain aggregated 2021-2023 results. During the 2022-23 surveys, new questions were piloted which included areas covering equality, diversity, inclusivity and discrimination. Analysis of this new information is ongoing.
